The Japanese people are the #2 unreached people group in the world. With that, people who lived in Michigan and met Jesus through participation in our ESL program struggle to find other believers in Japan to connect with after they move back.

Our partner, CBI, is committed to sharing the Gospel further with the unreached people in Japan, by giving support to the revitalization of Japanese churches and equipping new church leaders through seminary.

We have the privilege to serve along with CBI to their neighbors and our returnees through Easter outreach events and gatherings.
